**1. PURPOSE.** This advisory circular (AC) announces the availability of AC 150/5370-10A, Standards for Specifying Construction of Airports.

**2. CANCELLATION.** AC 150/5370-10, Standards for Specifying Construction of Airports, dated October 24, 1974, is cancelled.

**3. BACKGROUND.** This revised AC incorporates Changes 1 through 24 previously contained in AC 150/5370-10, and deletes several obsolete standards (P-153, P-201, P-206, P-214, P-215, P-216, P-408, L-112, L-125, and T-61 1). All other standards have been updated to incorporate ASTM standards in lieu of AASHTO standards, eliminate obsolete ASTM, MIL, and FED.SPEC. testing and material requirements, and have been rewritten in guide specification format. The density acceptance criteria for Item P-401 has been revised to reflect a new lower specification limit and use of the standard deviation to compute acceptance parameters.
